

SafetyStreetMap

Goals

Which questions/problems/situations do you think this map is trying to address?

- Provide safe routes (e.g. at different times of the day)
- Provide recommendations for a migrant from a different country

Audience

What group(s) of people would benefit the most from using this map?

- Women
- Racialised people
- LGTBQ+
- Children
- Young adults
- Elderly
- Migrants

Example use

How do you see your map being used?

- As a tool for safety measures which is mindful about different types of users
- As a tool to create a home-like experience for new migrants/people in a city
- Finding routes that are well lit at night
- Deciding routes for exercising (e.g. running, cycling)
- For policy-makers to enforce/evaluate safety of places

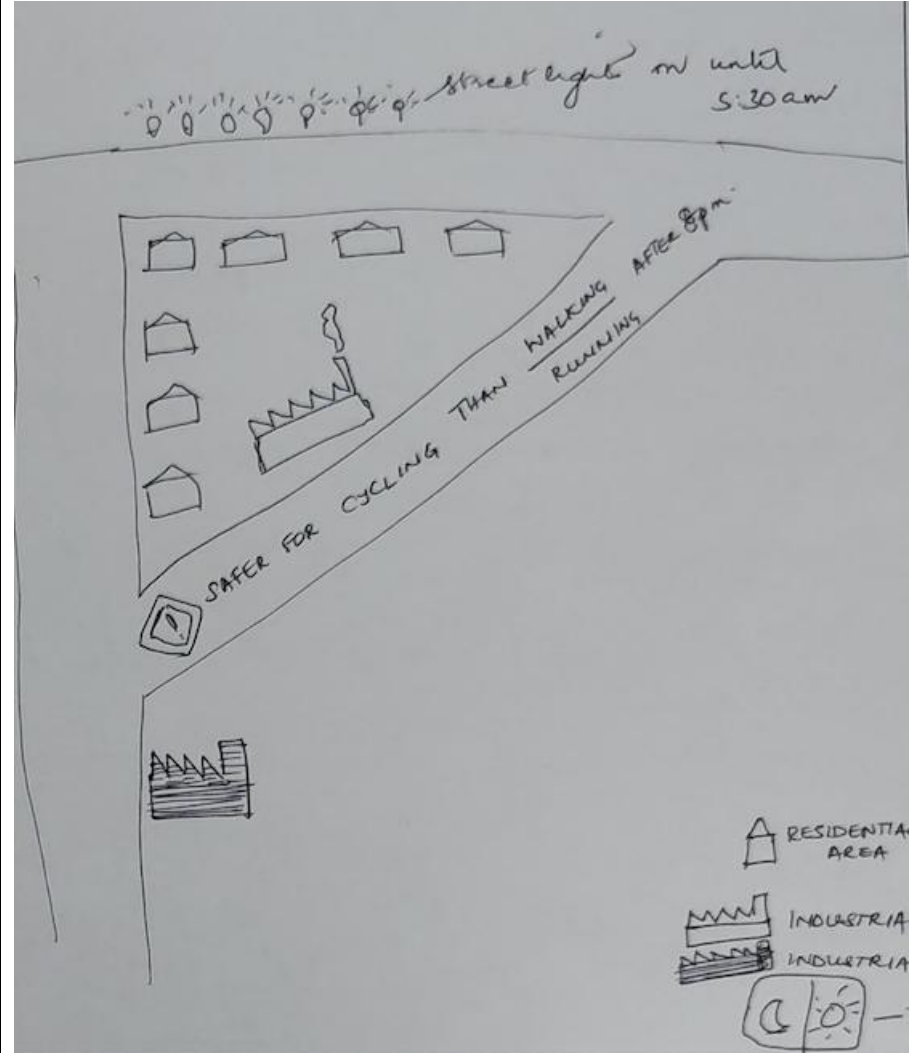

Map Features

What features are most important to your map?

- Roads
- Bus stops
- Buildings types (residential, industrial, offices...)
- Green spaces
- Street lighting
- Loos
- Water fountains
- Safe routes (e.g. busy streets)
- Rest areas
- Seasonal Markets
- Public transport and timetables (e.g. day/night)

Sketch/Drawing/Image

How are you envisioning the map to look like at different zoom levels?

Map Anti Features

What is not important to your map?

- Consumerism
- Hotels
- Not stigmatizing or stereotyping communities

Design Considerations

What kind of design will make your map work best? eg Styles, Colours, size, shapes, icons

- Use of light
- Show lights and if there are other humans walking nearby
- Building types should be coloured, as they tend to have different use patterns
- Different shades of green to show density of woods
- Day and night differences
